Unsupervised Learning

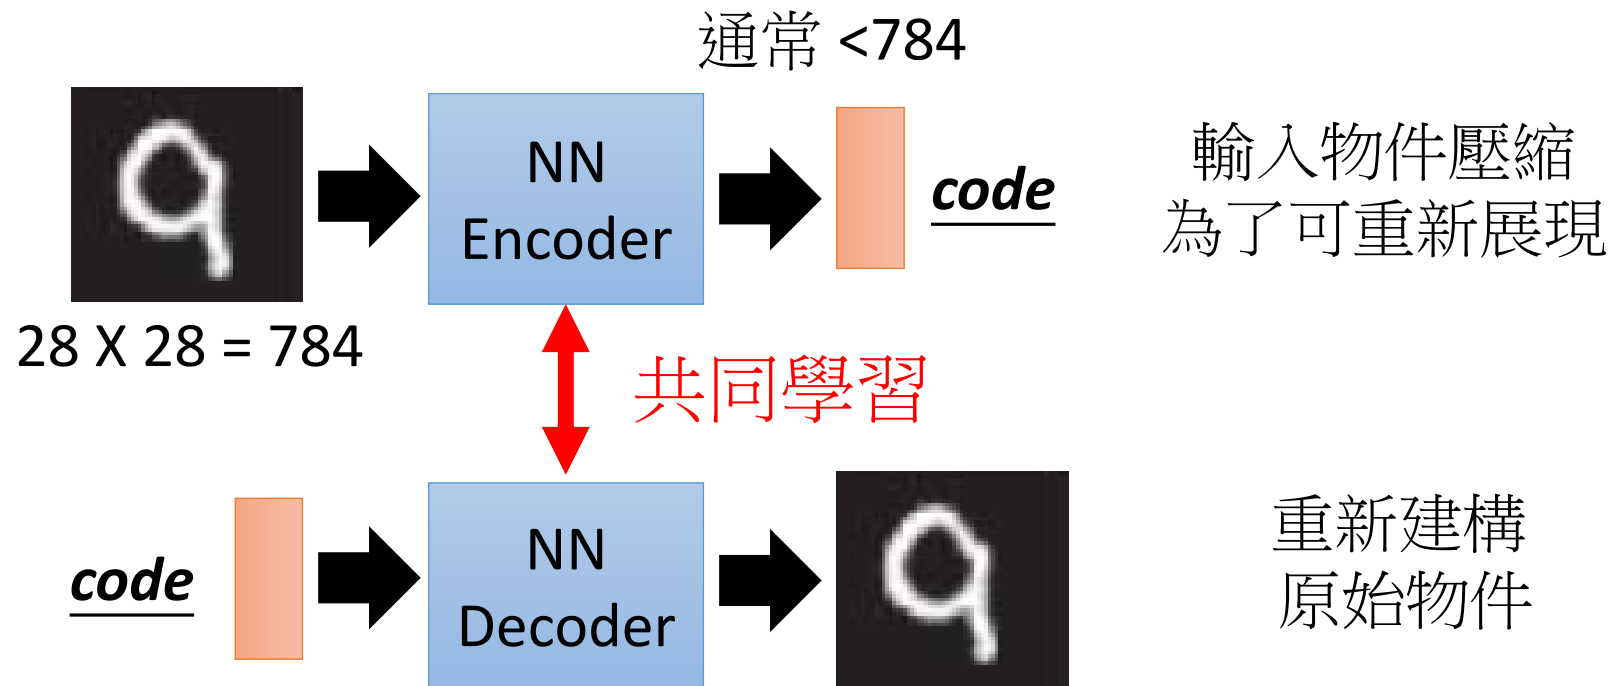

“We expect unsupervised learning to become far more important in the longer term. Human and animal learning is largely unsupervised: we discover the structure of the world by observing it, not by being told the name of every object.”

– LeCun, Bengio, Hinton, Nature 2015

As I've said in previous statements: most of human and animal learning is unsupervised learning. If intelligence was a cake, unsupervised learning would be the cake, supervised learning would be the icing on the cake, and reinforcement learning would be the cherry on the cake. We know how to make the icing and the cherry, but we don't know how to make the cake.

- Yann LeCun, March 14, 2016 (Facebook)

Auto-encoder

Recap: PCA

Deep Auto-encoder – 範例

Auto-encoder – Text Retrieval (文字攫取)

向量空間模型

Bag-of-word

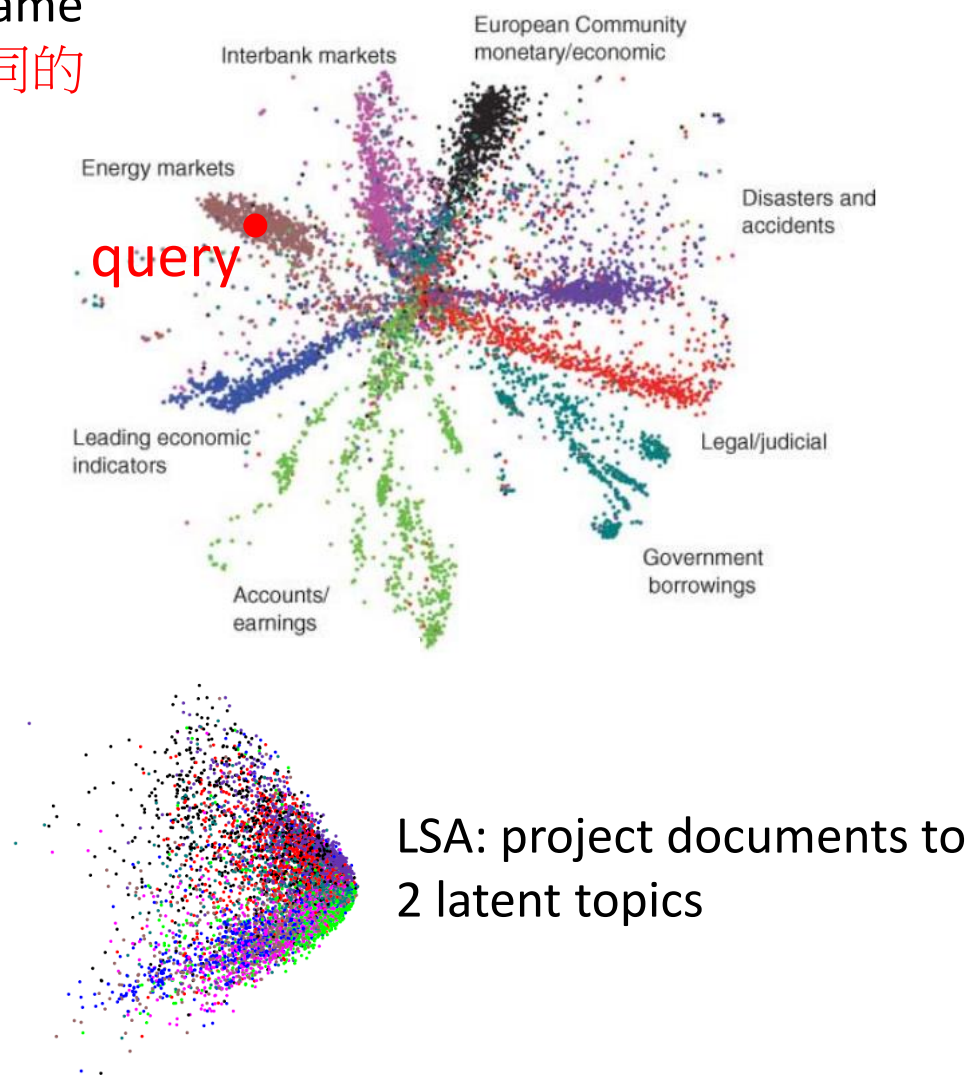

word string:
"This is an apple"

| | | |
|-------|---|---|
| this | ● | 1 |
| is | ● | 1 |
| a | ● | 0 |
| an | ● | 1 |
| apple | ● | 1 |
| pen | ● | 0 |
| ⋮ | ● | |

不考慮場景.

Auto-encoder – Text Retrieval(文字攫取應用)

The documents talking about the same thing will have close code. 探討相同的事情將會逼近同的一個 Code

Auto-encoder – Similar Image Search (相似影像搜尋)

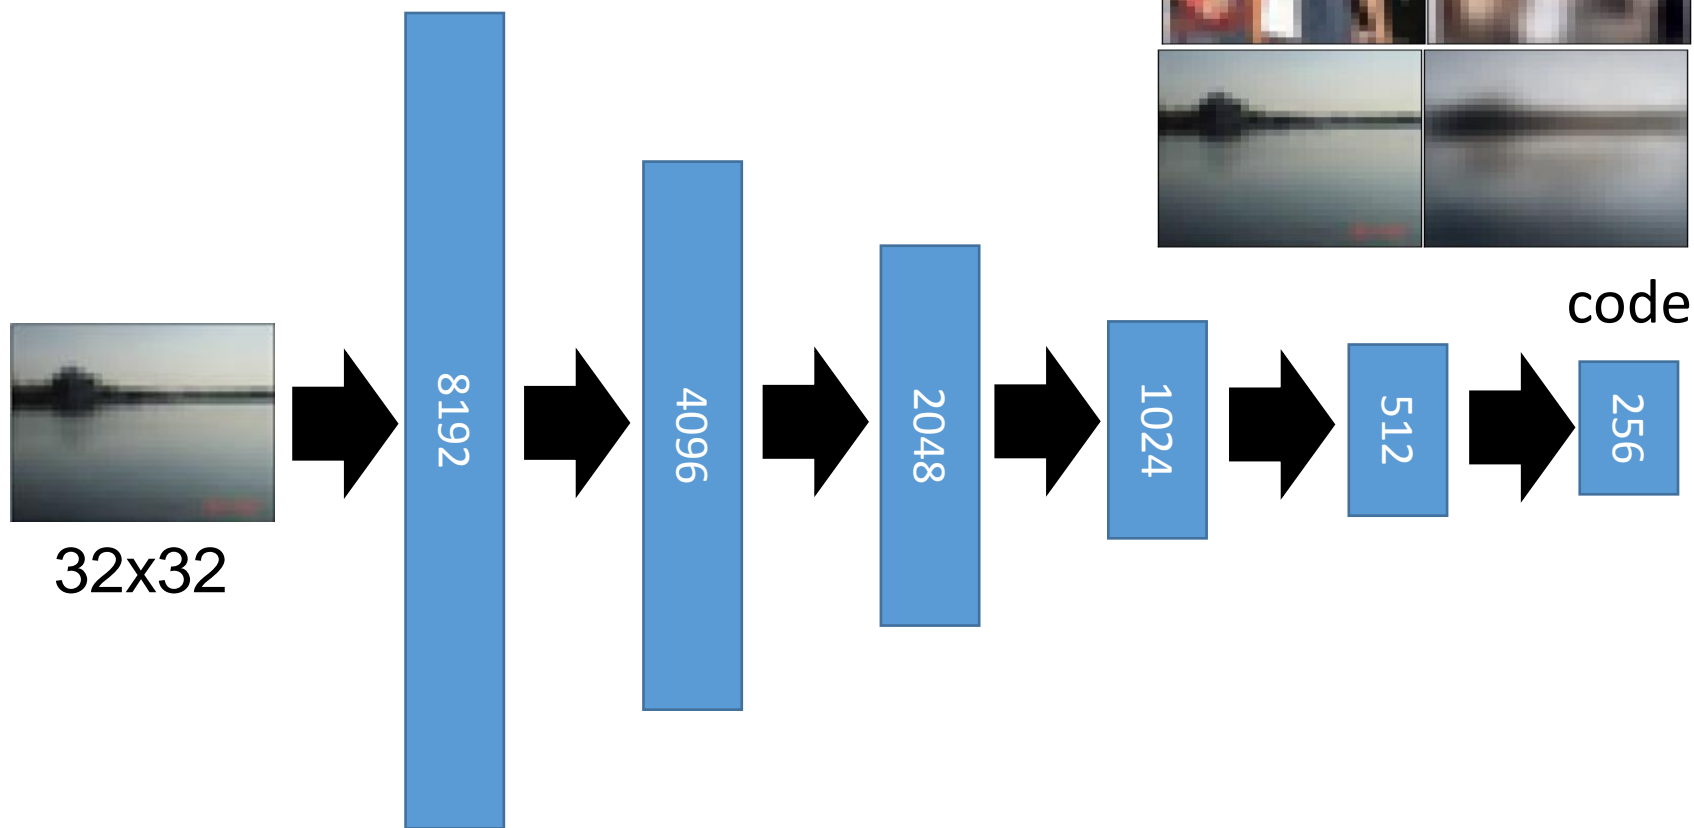

Retrieved using Euclidean distance in pixel intensity space
用像素的空間密度尤拉距離 攫取影像

(Images from Hinton's slides on Coursera)

Reference: Krizhevsky, Alex, and Geoffrey E. Hinton. "Using very deep autoencoders for content-based image retrieval." *ESANN*. 2011.

Auto-encoder – 相似影像搜尋

(crawl millions of images from the Internet)

從網際網路數以萬計的影像

Retrieved using Euclidean distance in pixel intensity space

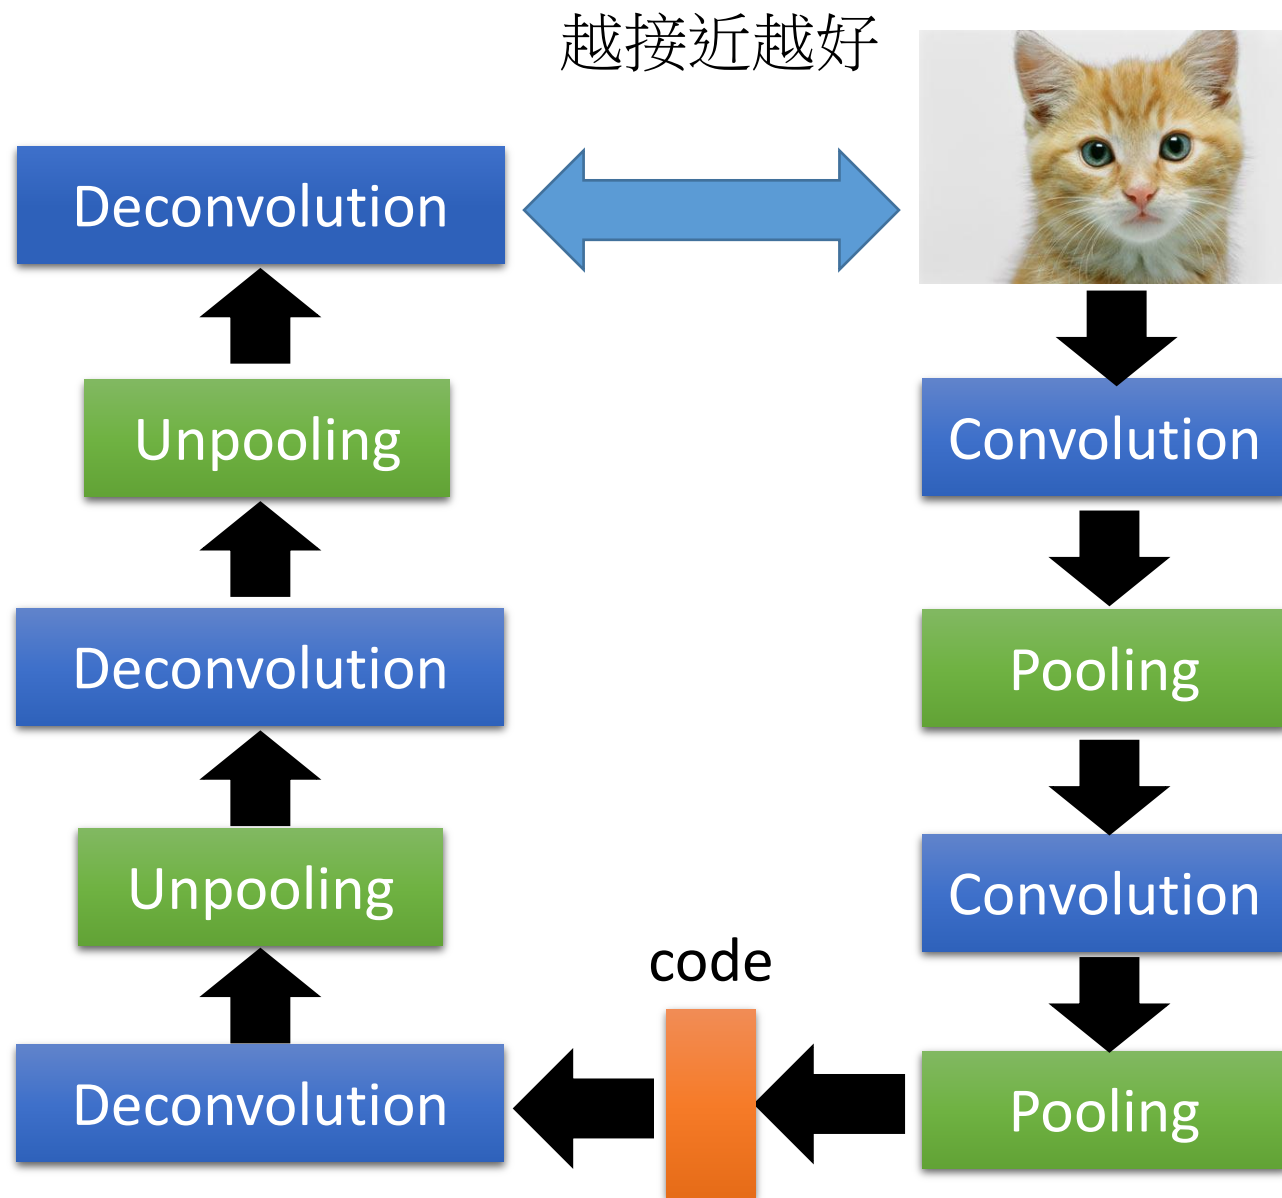

用256 codes 攬取相似影像

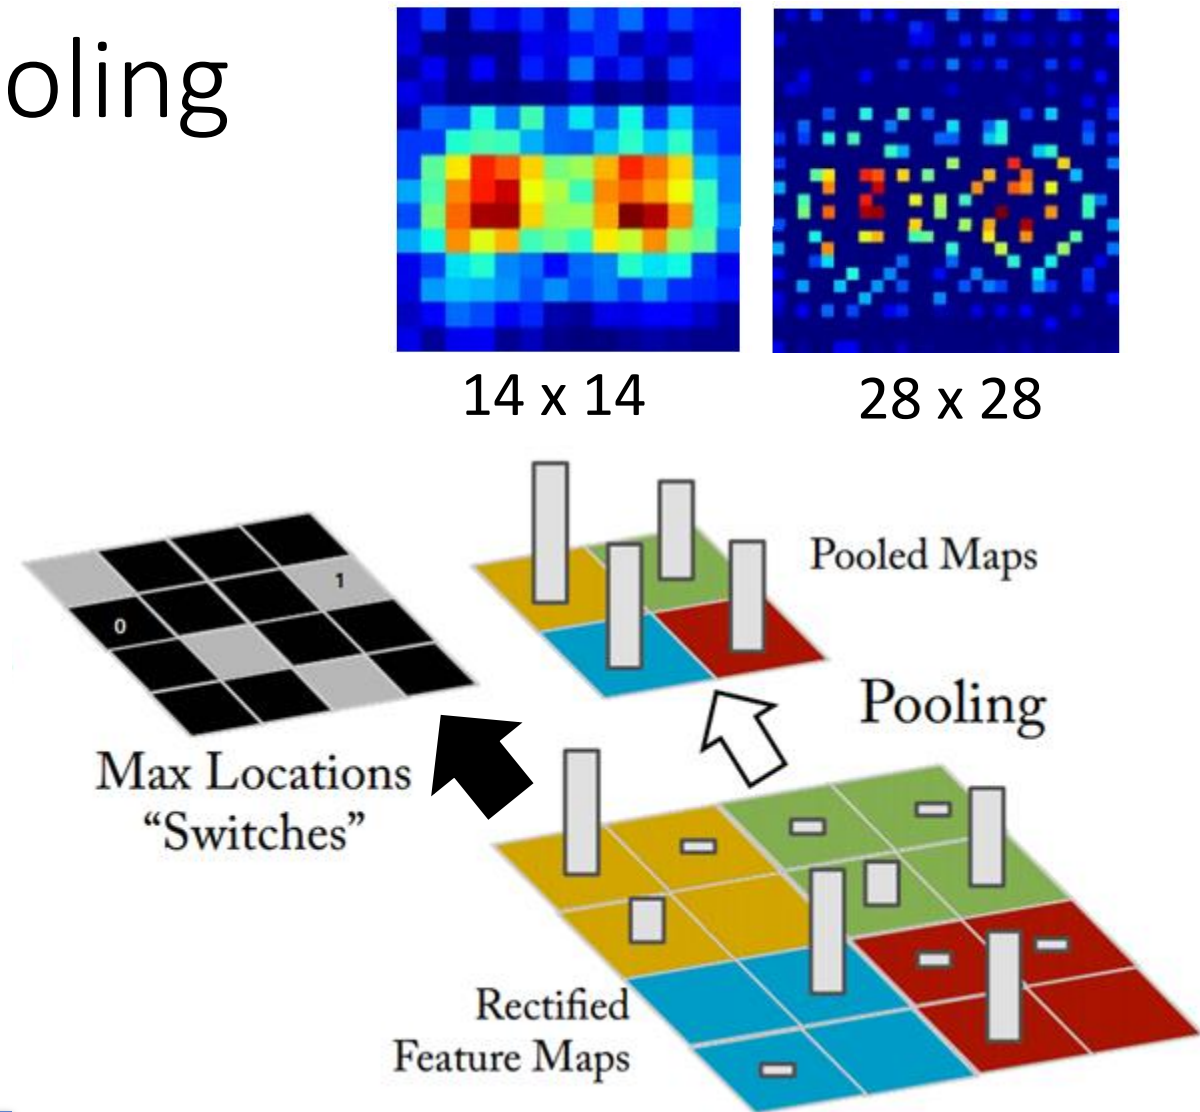

CNN 設計

Auto- encoder

CNN – Unpooling 過程

Alternative: simply
repeat the values
